Professionalism Finds No Place in Bowling League Ranks.

WHAT THEY DID IN BOSTON

Columbias Surprised With a Triple Victory-Attractions at Coming Smoker-Carroll's Good Team Work-Intentry's Indoor Carnival Cadets Ready for All Comers.

The Amateur Bowling League, of Boston, is doing its level best to keep the ranks of teams pure and free from professionalism and it is believed that with the action taken at last weeks' meeting always asks our assistance, there are no recognized amateurs as he appreciates good clothplaying professional tenpins in Boston ing h nts. or vicinity, now.

On account of the great interest bowl ers take in the league race in the Hub city it is believed there will be little frouble in keeping the ranks free from the objectionable feature. At a recent meetthat "any player who had competed in a public alley tourney for money prizes would be inelligible to bowl in the big league." As this ruling hit some of the leading terms quite hard, those clubs took steps to have another meeting called to rescind this action. Eight clubs were to rescind this action. Eight clubs were represented at the meeting and after a long discussion it was voted to rescind the previous action and substitute a penalty which will certainly stop all professional playing by amateurs for some time to come, if not for all time. Ten members were suspended for sixty days and not until the end of that time will apply the provided the start of the start they be allowed to bowl on their respective teams, provided they keep their amateur standing in the meantime.

In the meantime the District Bowling

League keeps up its clean amateur stand-ing, which has been the pride of bowing organizations for five years, and never has there been a question raised as to the amateur standing of any one of its members. This is a record to be proud of and reflects credit alike upon the mem-bers and the management. This will be one of the reasons why the "all star" one of the reasons why the an star professional teams which will shortly start out on their long tour will not stop here. What's the use? All the best bowlers are amateurs and in the League and know too much to take up profes-sional bowling, even for a single tourney. Columbia Athletic Club.

The return of Rodier has strengthened the team very much, both in its playing and in the confidence among the players in their ability. As has been said several times, the team has some very good material in its ranks, but it lacked an experiment haviling have to being it. In their ability. As has been said severa' times, the team has some very good material in its ranks, but it lacked an experienced, hustling player to bring it out. Silts has been keeping up his good work, doing his best to help out. You Boeckman has been making high scores right along, but without team work behind him his work alone did not help much.

The amusement committee, Dr. Exner, ladies' day to be given at the clubhouse next Thursday afternoon one of the most attractive it has ever held. There will be musical and athletic features; the mos interesting of the latter will be a fencing exhibition between Prof Darialat and or of his most accomplished lady pupils, who is said to be quite expert in foil fencing. A large crowd is promised. Admission viii be by card only, which latter may be ad of members. Next Saturday evening the club will hold

its first athletic smoker of this season, and for this Prof. Crossley and his committee are working hard. They will not rely up-on the club members alone for contribu-tions to the program, but will mix in a from other organizations est Schafhirt and Lee will wrestle several bouts, and Shreve and Morsell, of the Light Infantry, will give their great act on the revolving ladders. This act is more clever than that given by many so called professional gymnasts and will no doubt make a hit. Von Boeckman will show the boys how to handle the 150-pound dumbbells, and altogether a strong pro-gram will be offered. Each member will

be entitled to two guest cards.

Thomas, well-known rowing man and all-around athlete, is rapidly recovering from a severe lliness from typhoid fever McElhome and Greene may be in shap to give an exhibition of the high jumpl g and vaulting next Saturday. Tony Rice is plugging away, doing good work and saying but very little, while Armstrong drops in his strikes when and where they are most needed. Altogether the team has seldom before been in such good shape.

Corcornn Cadet Athletes. Capt. Edwards, manager of the Corcoran Cadets basketball team, hopes to lose arrangements with the Champions of the East the Twenty-third Street V. M. C. A. of New York, for a game to be

played here in Februrary. The C C C team was handleapped in its game with the Easterns last week on account of the absence of three players, including Capt. Guista, all of whom are engaged evenings during this month.

"We have nothing to say about the game we lost to the W. A. C. last week, except that the winners had all the luck there was going that night," said one of the enthusiastic soldier rooters, "and you know you can't win against luck, espe-cially when two such players as Dodge and Collins were sick and ought not to have been in the game. We evened up however, by beating the Easterns with two subs on our team and team Capt. Guista not able to play. We will continue to hold our own against all comers,' he said in conclusion

The team certainly is clever in team work and especially in passing under its best work will be seen when it has had more practice.

Jim Hendley and Stewart Goss are in good playing shape, considering the short time they have been in the game. Hendley's work on Wednesday was note worthy. Clarke and Dodge are again it shape, and Guista is working out some new signals under Manager Edwards' direction, and with them they hope to sur-prise some of the vets. The next game for the Corcorans is scheduled for De-comber 27 with the Mount Pleasant Ath-letic Club. The team will probably enter a protest

The officers of the Fencibies, Mortons and Emmets and the Corcorans have tak-en a lively interest in the success of the affair, and they all hope to make ath-letics a striking feature of the National Guard organization right after January 1.

A large number of applications for mem-bership have already been received. Prof. Horan and his classes have stop-ped work until after the holidays when class and drill work will be taken up in earnest and then there will be competi-tions to bring out the interest of the va-

rious organizations.

The High School basketball team was the guest of the association last Monday and while down played an interesting game of basketball with the Corcorans, which was won by the latter.

STOCKS HAVE A BIG DAY.

The Market Reflects the Return of

America to Peace. New York, Dec. 10.—The dealings or the stock exchange this morning, both in stocks and bonds, were the largest recorded since Saturday was made a half holiday. The demand for securities particularly for bonds, was also phenome nal. The market for bonds was "described, without much exaggeration as reflecting an investor's panie, Buying through commission houses was not limited to the bond market, for the strength of the stock list was due mo e largely to the execution of orders by brokers who rely upon the pub ic for business than at any time within many months. It looks very much as if the investing public were beginning to appreclate the favorable commercial and financial conditions that have developed since the war with Spain was brought to close. The trade reports and all statistles regarding the movements of merchandise and the business of the rallroads show that prosperity and confidence are increasing. The strongest ele-ment in the present situation is the condition of the foreign trade of the coun-try. Europe is now not only detendent upon this country for a large proportion of the necessities of life, but is be rowing money here to pay for our products and is doing so in spite of heavy saids of securities that have been made with a view of reducing its indebtedness.

The conspicuous features of today's stock market were the grangers under the leadership of St. Paul, Sugar Refining, Federal Steel preferred, Missouri Pacific and the less active shares General Electric Change Grant Western preferred and American Malting com-mon. The sharp advance in prices pro-voked some profit-taking, but operations of that character had little effect upon prices. The weekly bank statement showed an ingrease of nearly a million and a half in lawful money. As compared with the final prices of last Saturday, the list is higher, with the exception of Kansas City, Pittsburg. and Gulf, which declined 21-4 per cent.

The buying movement which began on Friday was in full away yesterday, and further advances were made. London bought St. Paul on the largely increased earnings of the first week of December and this seemed to stimulate buying of rial. It is proposed to hold an athletic carnival early in February and the program in part will contain the following features: Sparring. Shreve, McQuade, Hough and Kendall.

The bank statement showed an expansion of loans, an increase of deposits and a loss of legal tenders. The last was off-set and more by the gala in duced by the last named item. The lgures follow:

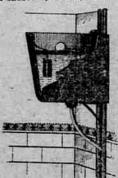

Reserves decreased \$354.650; loans increased \$4,561,800; specie increased \$2,-604,200; legals decreased \$1,143,300; deposits increased \$7,262,200; circulation decreased

The St. Paul earnings for the first week of December undoubtedly had a large influence on the market. The dulist market with no interest from the outsiders would not fall to respond to such a statement. The increase for the week as \$140,221, one of the largest increases if not the largest, in the history of the company. The increase from July 1 was \$1,352,074. The gross earnings for the week were \$802,822. St. Paul opened at an advance from Friday night's close of 3-8. and during the day there was a further advance of 3-4 to 116, the closing price. The other grangers partook of the inerest in St. Paul to a certain extent. Burlington advancing to 1211-4, and Rock Island to 1105-8. The interest in the grangers was the first that has been exhibited for a week or more. It gave a new hope to the bulls.

The entnings of Rio Grande and Western for the fourth week of November in-creased \$60. For the month the increase was \$2,875, and from July 1 the decrease \$3,000. The earnings of Kansas City. Pittsburg and Gulf for the first week of December increased \$2,462, and for the period since January 1, \$833,000. The earnngs of Ontario and Western for the week

THE WHEAT MARKET.

The May Product Ranges Considerably Above the Call Price.
Chicago, Dec. 10.—May wheat was considerably above the call price today, although the local market has not been so strong as New York or other outside markets. The December May difference continues about 13c, with the people who take deliveries shipping the wheat out. The Argentine news has been conflicting.
